None of the references cited by the examiner or by applicant are deemed to teach or suggest, either alone or in combination, each and all of the limitations of the independent claims. With regard to these limitations, however, it is noted that the claimed "intent log" must be limited to the meaning that it has been given in the specification, namely:

"The intent log tracks differences between metadata stored in memory (e.g., metadata in a metadata cache) and metadata stored on disk ... The Intent Log Entry documents the intention to update both the version of the metadata stored on the disk array 140 and any mirrored version(s) of the metadata on other server nodes 151 of the cluster 160. The Intent Log provides protection against inconsistencies resulting from a power loss before or during an update".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
